In these buildings are quartered the Commands of the Brigade and the Arty Regiment. Two single-story and stone-constructed buildings, having arched roofs covered with tiles, serving as cook-houses.

Two similar sheds. In one of them are quartered the 122mm Arty Group, and the 76,2 mm Arty Group. In the other are quartered the following units:

- 1) 107 mm. Mortar Battery of the Arty Rgt.
- 2) Two Arty Batteries attached to the Inf. Battalions.
- 3) The A.A. Arty Group of the Arty Rgt.

Furthermore in the area of the barracks there are two stables for the mules of the brigade, and a parking shed for the vehicles of the Brigade and the Arty Rgt.

The a/m 12 buildings are used for the lodging of the brigade troops (two inf. Battalions and the Arty Rgt), and some of them are used as warehouses for clothing, etc. Exactly opposite to the a/m barracks (on the West side of the road leading from Korce to Erseke), there is another shed for the deadlined vehicles of the brigade. In the same shed is the Vehicle Repair Workshop of the brigade too.

Water and electricity is available from the main installation of the town of Korce. The area of the barracks is surrounded by a wall 4 m. high

The parking shed with the deadlined vehicles, which is located

opposite to the barracks, is surrounded with a barbed-wire fence. Drums of fuel and lubricants are stored in the open, within the court-yard.

The barracks are in day time guarded by a sentry placed at the main gate. Another sentry is assigned to the parking shed located opposite to the barracks.

At night patrols are assigned in addition to the a/m sentries. 25X1

[redacted] the capacity of the above described barracks is not only sufficient for the troops of the brigade, but there is room in them for other units too.

b) Ammunition Depots

Ammunition Depot in MBORJE

On the South bank of the river which passes from the North end of the village MBORJE (DK-836950), there is a single-story and stone-constructed building with arched roof covered with red tiles. [redacted] the dimensions of this building are 18 x 8 x 4 m., and it is surrounded with 4 successive fences of barbed wire. In this building are stored Arty and Mortar shells for the units of the Korce Brigade. A guard post of 3 soldiers and an NCO is daily dispatched to this depot from the brigade of Korce. The depot is day and night guarded by a sentry. 25X1

Ammunition Depot in SHEN - THANAS

At SHEN-THANAS (DK-827965) there is a single-story and stone-constructed building with arched roof covered with red tiles. The dimensions of this building are 18x8x4 m. and it serves as a depot for Arty, Mortar, and small arms ammunitions.

The building is surrounded with four successive fences of barbed wire, and it is guarded by a post of 3 soldiers and an NCO.

Ammunition Depots in the area of LOZHAN

About 100 m. N.E. of LOZHAN (DK-622068), and on the West side of the ravine located East of LOZHAN, there are two single-story and stone-constructed buildings with arched roof, covered with red tiles. Each one of the a/m buildings is 15 x 6 x 4 m. and they are both surrounded with barbed-wire fences. These buildings are used by the Korce Brigade as ammunition depots. Arty ammunition is stored in one of them, and A/T mines, used by the Engineers Service, in the other.

Furthermore, there is a third building 4x3x3 m. which serves as a guard-post.

About 1000 m. N.W. of the bridge (DL-614080) located on DEVOLL river there are

6 more single-story buildings , of the same construction and dimensions as the above. These buildings are ~~also~~ surrounded with four successive fences of barbed-wire and they are used as depots by the Korce Brigade.

In the same area there is single-story building, of the same construction as above, which serves as a guard post; the dimensions of this building are 8x6x3 m.

Two, out of the six depots described above, contain Arty Shells for the Korce Brigade.

[redacted] 20 soldiers of the Korce^{25X1}

brigade had been sent to the a/m Depots, on 18 to 23 May 1956, to unload vehicles transporting Arty shells and mines from the port of DURRES.

[redacted] about^{25X1}

120 trucks(4 ton Z.I.S.), and the Arty Shells and mines [redacted] were stored in the² depots located N.W. of LOZHAN. ^{25X1}

[redacted] the other 4 depots [redacted] contain ^{25X1}

ammunition of the Korce Brigade.

The transportation of ammunition from Durres was carried out even after the 23 of May.

[redacted] soldiers were sent to continue the ^{25X1}

unloading of the trucks; the transportation of ammunition was completed on June 18, 56,

[redacted] and it was stored into the other ^{25X1}

depots of the same area. ~~22~~ Machine guns and other small arms ammunition was stored ^{25X1}

in these depots [redacted] soldiers of the Korce Brigade [redacted] had been sent to unload trucks transporting ammunition from the port of Durres to the depots in question. ^{25X1}

FOURTH CHAPTERECONOMIC SITUATIONE C O N O M Y1. - F a r m i n ga) Village of LAC (DM-168164)

[] the farmers of this village have not joined the cooperative, 25X1
but they remain independent farmers. Wheat and corn are mainly cultivated. []

[] farming production per year [] is not sufficient for

the population. The taxes required per strema ($\frac{1}{4}$ of an acre) of ~~2.555~~ cultivated
land are as follows:

8 kgs of wheat.

12 kgs of corn.

3 kgs of meat.

8 eggs.

Wool (quantity required unknown).

In addition to above the farmers are required to pay in cash the so called "profit
tax" [] 25X1

The heavy taxation renders the position of the farmers much more difficult.
